Plug type E+F CEE-7/7-System

Two safety feature systems are incorporated in the Schuko plug so that grounding (earthing) functions through the flanges on the circumference of the plug or through an earth pin (French system).

Connector type C13

The appliance coupler IEC 60320-C13 is used to connect equipment that doesn't produce excessive heat when in use. The maximum pin temperature should not exceed 70°C and the maximum current is 10A.
