

USB 2.0 special cable: A right angled to JST PHR-5 (not plugged in), 19cm

Product number OEM-01

Product description

USB 2.0 special cable: USB 2.0 A plug angled 90° to the right to JST Connector PH Series Female PHR-5 (contacts not yet plugged in), length approx. 19cm

Technical data

- USB 2.0 special cable optimised for housing feed-through
- Realisation: The 4 contacts are not yet plugged into the JST connector
- Diameter of the round cable approx. 4.8mm
- Connection 1: USB 2.0 A plug 90° angled to the right
- Connection 2: JST Connector PH Series Female PHR-5
- supplied with JST housing in bag (contacts connected with stranded wires, but not yet plugged into JST housing)
- UL 2725 cable material e.g. E238846
- Length: approx. 19cm | 190mm (measured over all)
- Length of outer insulation: approx. 111mm
- Length of the protruding shield foil/braided shield: approx. 15mm (fold over and crimp in during final assembly)
- Length of the strands approx. 60mm (from the end of the outer insulation)

Application

The USB 2.0 special cable offered here has been optimised for a housing feed-through. As the contacts of the JST connector are not yet plugged into the JST housing, the cable can be plugged through a small round hole in a device.
